

**PUBLIC HEALTH AND MEDICAL (EMERGENCY FUNCTION 08)  
SITUATION REPORT  
EBOLA VIRUS DISEASE, 2014  
DATE OF REPORT: OCTOBER 23, 2014  
OPERATIONAL PERIOD: OCTOBER 20 - OCTOBER 24, 2014  
CALIFORNIA DEPARTMENT OF PUBLIC HEALTH  
EMERGENCY MEDICAL SERVICES AUTHORITY**

**EXECUTIVE SUMMARY**

**There are currently no suspected or confirmed cases of the Ebola Virus Disease (EVD) in California. The risk of EVD to the public is very low. Healthcare providers may be at a higher risk for EVD infection.**

The outbreak of EVD in Guinea, Sierra Leone, and Liberia of West Africa continues to expand but does not pose a significant risk to the United States. As of October 19, the World Health Organization has reported a cumulative total of 9936 suspect, probable, and confirmed cases and 4877 deaths.

The CDC, California Department of Public Health (CDPH), California Office of Emergency Services (Cal OES), State level Emergency Function 08 partners, and Emergency Medical Services Authority (EMSA) continue to prepare for the management of potential EVD cases in California.

CDPH continues to work with the healthcare community and local health jurisdictions to identify potential suspect cases and avoid spread of the disease. New guidelines and updated guidelines released by CDC are posted on the CDPH website available at: (<http://cdph.ca.gov/programs/cder/Pages/Ebola.aspx>). CDPH and local health jurisdictions are monitoring the situation closely and are taking steps to keep the public safe. EMSA has developed guidelines for Emergency Medical Services (EMS) personnel based on the recommendations of CDC and the California Department of Industrial Relations (DIR). The guidelines have been distributed to Local Emergency Medical Services Agency (LEMSA) Administrators, LEMSAs Medical Directors and the Regional Disaster Medical Health Coordination (RDMHC) Program. The document is posted on EMSA's website at [http://www.emsa.ca.gov/ebola\\_control](http://www.emsa.ca.gov/ebola_control). These guidelines will be updated as the situation evolves.

CDPH continues to recommend that healthcare providers implement the protocols established by the CDC about how to detect and isolate patients who may have EVD and about how healthcare workers exposed to EVD can be protected. The CDC

advises that healthcare providers in the U.S. should consider an EVD infection in the differential diagnosis of febrile illness, with compatible symptoms, in any person with recent (within 21 days) travel history in Guinea, Sierra Leone, and Liberia. The CDC advises people returning from the affected areas who may be at high risk for EVD should be promptly isolated and their blood sent to CDC for testing.

## **DUTY OFFICERS ON CALL**

<b>Table 1. Duty Officers On Call</b>		
<b>Agency/Program</b>	<b>Duty Officer Information</b>	
CDPH Duty Officer	Name:	Deborah Holmes
	Contact Information:	916-328-3605
EPO Duty Officer	Name:	Andrew Vellos
	Contact Information:	916-328-9025
EMSA Duty Officer	Name:	Markell Pierce
	Contact Information:	916-423-0911

## **CDPH/DHCS/EMSA CURRENT OPERATIONS**

The CDPH internal workgroup to address all public health aspects of the EVD response meets bi-weekly.

## **CENTER FOR INFECTIOUS DISEASES (CID) DIVISION OF COMMUNICABLE DISEASE CONTROL (DCDC)**

- **Epidemiology**
  - Significant Issues:
    - Developing a screening tool/guidance for hospital Emergency Departments (EDs) and outpatient clinics.
    - Developing additional guidance documents for Healthcare partners:
      - Outpatient and Ambulatory Care facility guidance for preparedness and screening for Ebola
      - Monitoring of Healthcare workers after caring for Ebola patients
    - Provided consultation to Local Health Departments (LHDs) on many Ebola issues, including patient screening, laboratory testing, and follow-up of unknown exposures.
    - Epi/Surveillance project teams activated to develop three products:
      - Contact Tracing/Management Plan
      - Returning Traveler Tracking Plan

- Deployment Team Plan (Resource to be made available to assist LHDs with Contact Tracing, Data Management, and Logistics)
- Critical Issues:
  - Working to identify additional Epi/Surveillance staff to assist with development of guidance documents, clinical consultation, etc.
- Program Impacts:
  - Significant impact on staff providing technical consultation for Ebola to local health departments. DCDC branches are setting aside non-essential functions according to our Continuity of Operations Plan (COOP) to handle the Ebola workload.
- **Surveillance**
  - All suspect cases must be reported to the local health jurisdiction. The local health jurisdictions will work with the DCDC clinical consultants to determine both the clinical criteria and risk factors for persons suspected of having EVD.
- **Laboratory**
  - Significant Issues:
    - Viral Rickettsial Disease Laboratory (VRDL) is continuing to address laboratory testing and shipment challenges and continues the process of determining the feasibility and readiness to test Ebola specimens.
    - A Division of Communicable Disease Control (CDC) Laboratory Resource Network (LRN) staff member will be onsite working with VRDL to help with risk analysis.
  - Critical Issues:
    - Identification of usable Biosafety Level 3 containment laboratory to handle and inactivate clinical samples.
  - Program Impacts: None at this time.
- **Infection control**
  - Significant Issues: CDPH Waste Management Interim Guidelines have been posted to the CDPH website.
  - Critical Issues: None
  - Program Impacts: No change
- **Information officer activities**
  - **Key Messages**

- Ebola is NOT an airborne transmitted virus. Isolation and personal protective equipment are focused on **CONTACT ISOLATION** as recommended by the CDC.
  - CDPH and EMSA have a plan and processes for response to Ebola.
  - California's hospitals have the capability and capacity to manage Ebola patients.
- **Medical countermeasures**
  - There are no updates at this time.
- **Community mitigation**
  - There are no updates at this time.
- **Other DCDC actions**
  - Resource Requests/Needs:
    - World Courier account for Ebola shipping.
    - Cache of cell phones for responders (received 2 from EPO, mobilized one from Communicable Disease Emergency Response (CDER) Branch to date). Pending submission of formal justification and request from RCCC to CDPH Executive Branch.
- **CDC Documents Released this Operational Period**
  - Guidance on Personal Protective Equipment To Be Used by Healthcare Workers During Management of Patients with Ebola Virus Disease in U.S. Hospitals, Including Procedures for Putting On (Donning) and Removing (Doffing): <http://www.cdc.gov/vhf/ebola/hcp/procedures-for-ppe.html>
  - When Caring for Suspect or Confirmed Patients with Ebola <http://www.cdc.gov/vhf/ebola/hcp/caring-for-ebola-suspects.html>
  - Poster for Healthcare workers: <http://www.cdc.gov/vhf/ebola/pdf/could-it-be-ebola.pdf>

## **CDPH DOCUMENTS/MATERIALS RELEASED THIS REPORTING PERIOD**

- None

## **RICHMOND CAMPUS COORDINATION CENTER (RCCC) ACTIVITIES**

- The RCCC remains activated at Level 1 with minimal staffing. Hours of operation are 8:00 am to 5:00 pm, Monday through Friday. The DCDC and CDPH Duty Officers provide 24/7 after-hours coverage.
  - Significant Issues and Activities:
    - Center for Infectious Diseases (CID)/DCDC convened its second teleconference 10-22-14 with local health departments to provide updates on the Ebola response efforts and answer questions from local health departments. These meetings will continue weekly until further notice.
    - Provided an Ebola overview presentation to the Joint Advisory Committee (JAC) on October 15th and a presentation to Mutual Aid Regional Advisory Committee (MARAC) on October 22.
    - Continue to receive and respond inquiries from Local Health Departments, healthcare partners and the public via telephone and email.
    - RCCC continues to be notified by CDC EOC, Medical and Health Coordination Center (MHCC), and CDPH programs of inquiries received from California healthcare providers.
  - Critical Issues: None

## **ENVIRONMENTAL MANAGEMENT BRANCH (EMB)**

- The CDPH EMB Medical Waste Management Program, “Ebola Virus Disease Medical Waste Management – Interim Guidelines” are now posted at the program’s website:  
<http://www.cdph.ca.gov/certlic/medicalwaste/Pages/default.aspx>
- The Federal Department of Transportation (DOT) has indicated that states may apply for exemptions to the Category A: Infectious Substance Packaging Requirements.

## **EMERGENCY PREPAREDNESS OFFICE (EPO)**

- CDPH and EMSA continue activation of the MHCC to support activities of the RCCC and departmental programs, and enhance communication between emergency response and preparedness partners in California.
- MHCC and EPO management regularly participate in teleconferences regarding EVD with Federal, State, and local partners, assist in development of guidance documents, and coordinate CDPH program actions.
- MHCC maintains an incident on the Cal EOC website.

- CHPH has contracts in place with World Courier to accommodate transport of EVD samples.
- EPO is holding call center training on October 21, 2014. The call center (1-855-421-5921) was established as a point of contact for public inquiries.

## **DIVISION OF LICENSING AND CERTIFICATION**

- The first telecom was held yesterday with a target audience of Health Care Facilities/Providers. At this time, this telecom will be held weekly: Wednesday from 110:00 a.m. – 12:00 p.m.

## **CAHAN ALERTS**

- There were no CAHAN alerts issued today.

## **EMSA CURRENT OPERATIONS**

- EMSA is working with the Local Emergency Medical Services Administrators' Association of California (EMSAAC) and the Emergency Medical Directors' Association of California (EMDAC) in developing Guidance for the EMS Management of Infectious Disease such as Ebola. Local EMS Agencies (LEMSAs) are working with their ambulance providers and have identified ambulance companies that will transport these high risk patients. Contra Costa EMS Agency has developed a conceptual model for an Infectious Disease Ambulance Response Team (IDART) and other LEMSAs are developing similar models. AMR has already transported Ebola patients in Texas and is also developing special transport teams and is among the providers outfitting specialized ambulances.
- EMSA has issued guidelines for EMS personnel based upon CDC recommendations through the RDMHC and Medical and Health Coordination (MHOAC) Programs. EMSA is prepared to continue coordination with EPO, RDMHC, and MHOAC Programs.

## **STATE/REGION OVERVIEW**

Table 2. State/Region Overview		
Region/State	Proclamation/Declaration	Activation
MHCC	None	Level I

## **OPERATIONAL AREA (OA) MEDICAL AND HEALTH SYSTEM OVERVIEW**

- Current impacts/actions for Operational Areas are not included in this situation report as local situation reports have not been requested or provided at this time.

## **PUBLIC INFORMATION**

October 22, 2014

- Dan Kerman, KRON-TV (San Francisco)
- Polly Stryker and Lisa Aliferis, KQED-FM (San Francisco)
- Joey Blackwood, KOGO-AM (San Diego)
- Mike Casper, KCBS-FM (San Francisco)
- Gary Cohen, 24/7 NewsSource
- Tia Ewing, KTXL-TV (Sacramento)
- Mike Garza, KXTV-TV (Sacramento)
- Terri Hardesty, KGO-AM (San Francisco)
- Amy McKinney CTNS-TV (Sacramento/Statewide Affiliates)
- Chris Olin, KCRW-FM (Santa Monica)
- Michael Orcutt, KCRA-TV (Sacramento)
